

CONSTRUCTION OF RAIL CREEK SEWERGIGANTIC UNDERTAKING

WILL BE LARGEST TUNNEL SEWER IN CANADA AND WHEN COMPLETED WILL HAVE COST \$175,000—CONTRACTORS ARE WORKING DOUBLE SHIFTS AND WILL COMPLETE WORK INSIDE OF ONE YEAR—FIRST REINFORCED CONCRETE SEWER IN THE DOMINION—LAY 79,000 YARDS OF CONCRETE THIS YEAR—WILL DRAIN LARGE AREA AND ACCOMMODATE POPULATION OF 200,000.

Working by day and night in double shifts, at a depth beneath the city streets of over a hundred feet, one hundred men engaged on the construction of the Rail Creek Tunnel sewer, which is to serve as the main outlet for the future sewerage system of the city of Edmonton, will carry on operations during the coming fall and winter, and within a period of twelve months from today, the tunnel, 10 ft. 6 ins. in diameter and 2,200 feet in length, connecting the present Rail Creek discharge with the river by a line immediately east of the city, will be completed and ready for service.

First Reinforced Sewer in Canada
The tunnel cover upon which work was commenced a few days ago by the contractor, W. Manders, is not only the first reinforced sewer in Canada, but also the largest tunnel sewer in the world. It will be the largest tunnel sewer in Canada, and the first in the Dominion of reinforced concrete construction.

Concrete Blocks from Glover Bar
Work on the tunnel sewer was begun a few days ago by the contractor, and some twenty men are now engaged in making the preliminary cut of the river bank, at the point where the outlet of the tunnel will be. In a few weeks' time, however, a large crew of men will be taken on, and then

ward and southward, until their workings meet and the tunneling is finished. One workman will be engaged on each face, driving the "heading," a hole 3 feet in diameter, and after the heading has been driven some distance through the clay, six additional men will be put on, following up the work, and widening the tunnel until the hole has attained to a diameter of 12 feet. Should the clay prove of a hard nature, a circular hole will be driven, but in the event of soft and yielding material being met with, the hole will be made square throughout the portion of the tunnel where such a condition prevails, and the corners will be filled in with concrete giving an increased stability to the reinforced concrete tunnel within, which might otherwise be affected for all purposes without the assistance of the six men engaged in scooping out the tunnel, by the light of electric lamp supplied by a dynamo at the surface, three others will be at work the loose material, or nine men in all on each face.

Work Day and Night
Day and night throughout the coldest days of winter, there will be no cessation from work. In the subterranean passages, supplied with specially constructed electric lamps, to enable the men to work with the greatest ease, and maintained free from noxious gases by the air pumping plant, the men will be placed in the tunnel, or the metallic ring of the wrought iron hoops being placed in position to bind the concrete blocks together.

Increase Must Pass Upon Work
For the sake of convenience it has been decided that the excavation shall be carried on only during the day, and on the day shift a separate gang of men will be engaged in laying the concrete blocks, and placing and pouring in the concrete backing.

As each section of the work is completed, the men will be taken on by the city engineer's department, and the tunnel will be widened to 12 feet, and the day shift a separate gang of men will be engaged in laying the concrete blocks, and placing and pouring in the concrete backing. As each section of the work is completed, the men will be taken on by the city engineer's department, and the tunnel will be widened to 12 feet, and the day shift a separate gang of men will be engaged in laying the concrete blocks, and placing and pouring in the concrete backing.

Concrete Walls 18 Inches Thick
It is the introduction of reinforcing that forms the innovation in concrete tunnel sewer construction. The circular steel rods, of 2 by 1/2 inches iron, will enclose the concrete blocks, the semicircular steel rods, joined to complete the circle. Without these again will be a backing of concrete 5 inches in thickness and filling in the space between the concrete blocks in the early walls of the tunnel.

The walls of the concrete tunnel will thus be 18 inches thick. Where the excavation may be in square form, an extra quantity of concrete will be poured to ensure the strength of the concrete.

Spur Track from G. T. P.
A narrow gauge spur track is to be constructed this summer from the G. T. P. track to the scene of the operations on the tunnel, and all the material for the work, including the concrete blocks to be brought from Glover Bar, will be transported to the top of the various shafts by the conveniently located hoists for the workers' operation.

Drains Large Area
The outlet of the Rail Creek sewer will be 10 feet above the high water level of the Saskatchewan, but it will be at such a depth below the general level of the plateau upon which the main part of the city is built, as to make it a main outlet for all sewerage and storm water of the area extending north and east to the city limits, south to the edge of the bench land, and west as far as the Great river. It will be at the mouth of the tunnel, off the Edmonton or Strathcona side of the river that the sewerage disposal plant, to be undertaken in 1932, will be constructed. A pier, 60 ft. long, New York engineer, whose general design of a sewerage system for Edmonton was adopted by the city last fall, advised that the disposal plant be built on the Strathcona side, the sewerage being carried across by siphon.

REGINA PLANNING NEW WATERWORKS

INITIAL EXPENDITURE WILL TOTAL \$100,000—HIGH LEVEL BASINS TO HOLD 2,000,000 GALLONS.

Regina, Sask., July 7.—At a meeting of the waterworks committee last evening Commissioner McPherson presented a memo, accompanied by plans, outlining a waterworks scheme for the city of Regina, which if carried out should provide a plentiful supply of water for the city until it has reached a population of 60,000. Briefly put, the system provides for a high level basin having a capacity of 2,000,000 gallons, and a pump well with a capacity of 200,000 gallons. The high level basin is to be placed at a point on the ridge separating the city and the city's water supply, and will be supplied with water by a constant gravity pressure of 50 to 60 pounds, sufficient for all purposes without the assistance of steam pressure, except in the case of fire, when it would have to be raised to 100 or 150 pounds.

The proposed pump well situated at the lowest possible point in the district, will measure 50 feet by 50 feet, having a depth of 12 feet and a capacity of 300,000 gallons. At this point water is to be collected from the springs in the vicinity and pumped into the high level basin or direct to the city as occasion demands. The system will tap new springs not at present being used, one of which is said to supply as much water as all the others now being used. The water from the new springs has been found by analysis to be perfectly good, though somewhat harder than the water at present used in the city. The total cost of the proposed system will be \$100,000. The proposed system will not supersede the old, but will supplement it.

The Scheme:
1. Installation of the 18-inch main from the compensating basin to the high level basin.
2. Construction of the high level basin.
3. Installation of the force main from the pump well to the high level basin.

4. Construction of the pump well.
5. Construction of the collecting lines to the springs on sections 13, 18, 19, 22. All this work should be done before the season closes up about the middle of November, so that the system can be used for taking water to the city during the next winter.

An estimate of the carrying out of the work proposed for this year is as follows:

11,200 feet 18-in. main in place,	\$12,000 00
High level basin,	20,000 00
Force main, 1,500 feet of 16-inch main,	6,000 00
Pumping basin,	10,000 00
Pumps, valves, etc.,	5,000 00
Right of way,	15,000 00
Right of way,	8,000 00
Total,	\$106,000 00

HAIR HEALTH

If You Have Scalp or Hair Trouble, Take Advantage of This Offer.

We could not afford to so strongly endorse Haxal "93" Hair Tonic and continue to sell it as we do, if it did not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer. We assure you that if your hair is beginning to unhealthily fall out, if you have any scalp trouble, Haxal "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness. Our faith in Haxal "93" Hair Tonic is so strong that we ask you to try it on our positive guarantee that your money will be cheerfully refunded if it does not do as we claim. Two sizes, 50c. and \$1.00. Sold only at our store—The Haxal Store, St. Catharines.

EAGLES WILL BE INVITED TO MEET IN EDMONTON

COMMITTEE APPOINTED TO BOOST PROJECT—GRAND AERIE BEING HELD IN SAN FRANCISCO THIS YEAR—2,000 BRANCHES OF ORDER TO BE REPRESENTED.

With a view of securing for Edmonton the grand aerie of the Fraternal Order of Eagles at as early a date as possible after the completion of the Canadian Northern and the Grand Trunk Pacific transcontinental lines through this city, a committee of members of Edmonton aerie No. 1027 has been formed. This committee has undertaken the work of mapping out a campaign by which it is hoped to persuade the Grand Aerie to meet in Edmonton as soon as the railways are in a position to handle the traffic which such a large convention will bring to the lines. This will be in 1931 or in 1932, or possibly at an early date as 1931.

The Limit of Patience With Bouillon Reached

When Mr. Bouillon's sins of omission find him out his system is to write an interview with himself and have it published in the Journal, saddling the blame on some minor official and praising himself for his astuteness and devotion to the service of the public.

Under this system Bouillon is absolutely reckless of the injury and injustice he does to those whom he assails. Men whose only capital in life is their reputation for efficiency and whose only recommendation is their record of faithful service are maligned and libelled ruthlessly and without reason; are cast adrift not only without a recommendation, but with the black mark against them that they were "fired" from their last job for neglect, inefficiency and incapacity.

And now, with the public up in arms about the filthy condition of the water, Bouillon undertakes to make the water superintendent the scapegoat and to saddle on him the responsibility for the disgraceful condition of affairs in this branch of the city's service.

Charging Maclean with neglect of duty, disregard of the public interests and incapacity, Bouillon in effect announces that he must be dismissed at once if the city is to be relieved from the plague of bad water.

No blarney or more bold-faced prevarication was ever published. Mr. Bouillon's own neglect is the cause of the bad water supply and Maclean's attempts to get the city good water are a matter of record.

The difficulty at the pumping station is not that the filter will not work, even in its present condition, but that the pumping plant is not in order, and over this branch Bouillon himself has had complete control.

Just as an indication of the bungling from which the city has suffered one instance is worthy of recitation. Until a week ago the pumping station was so arranged that a three million gallon pump, working at considerably less than its normal capacity, lifted the water into the sedimentation basin, but a pair of four-million gallon pumps lifted it out of the sedimentation basin into the filters and a six million gallon pump pumped the water out of the clear water basin into the city mains. In other words, the plant was so designed that a three-million gallon pump at the intake had to feed a six million gallon pump at the outlet, and when it failed to do so the only possible source of supply was to put the big pump to work pumping dirty water from the river.

It is a matter of record that the waterworks superintendent months ago did everything he knew how to have this condition of affairs changed, and the developments show that it was because Mr. Bouillon did not carry out the superintendent's recommendation that the greatest part of the difficulty occurred.

Bouillon undertakes to make great capital for himself out of the fact that the sedimentation basin cannot be used to its full capacity, and he intimates that he will have this fixed if the public will give him a few months longer.

On Page 122 of the city's annual report, filed October 31, 1910, there is to be found the following recommendation by the water superintendent:

"I would suggest that the question of repairs to this basin (the sedimentation basin) be taken up at once and work be commenced at the first of the year so that proper use can be made of the basin during the next year's operation of the filters."

Had the commissioner followed the recommendation of the superintendent made last October the sedimentation basin would not be troubling him now.

These are only a couple of instances to show that the blame for the bad water lies with the commissioner and not with the superintendent; and yet the commissioner announces his intention to discharge the superintendent.

Undoubtedly the limit of patience has been reached with this man Bouillon and the council will have to finish its work without delay.

Prairie Province In Position of Minors

Ontario on the east and British Columbia on the west own their own resources. Both provinces pay practically all expenses out of the revenue derived from the sale and administration of the timber alone and have a balance in the bank sufficient to retire all their bonded indebtedness and leave a handsome surplus.

The Prairie provinces in the central plains do not own their own resources. All are in debt and notwithstanding that there are resources within their borders of incalculable value in timber, minerals and water powers, have practically no available assets except an annuity from the Dominion government. Their next logical move is direct taxation.

The prairie provinces have been told that they have a good bargain from Ottawa inasmuch as that the cost of administering the resources is represented to be quite as much as the revenue derived from that source.

But at the same time the prairie provinces are told that the \$20,000,000 or \$25,000,000 required for the construction of the Hudson's Bay Railway is to be provided out of the sale of pre-emption lands in Alberta and Saskatchewan.

Obviously, the provinces of Alberta and Saskatchewan are contributing vastly more to the Dominion treasury than they are getting back, or else the promise of the Dominion to build the Hudson's Bay railway is insincere.

In common justice, the prairie provinces should no more be required to build the Hudson's Bay railway than the provinces of Ontario, Quebec or British Columbia. The work is as much a work for the general good of Canada as is the Intercolonial. If Alberta and Saskatchewan lands are to be made to pay the cost of this road, New Brunswick and Nova Scotia lands should be made to pay the cost of the Intercolonial.

Undoubtedly the prairie provinces are being done a great injustice by the arrangement which takes their resources under executorship, places them in the position of minors and makes of their legislators remittance men.

JUST PARAGRAPHS

Possibly the reason Max Aitken was knighted was to place him on an even basis with Sir Sanford Fleming in the scrap which is due to commence at Ottawa when the cement merger is investigated.

Mr. Bouillon says that given time he will provide the city with clear water. Having claimed credit for all his superintendents ever did, it appears that he now intends to wait until the river subsides and claim credit for that too.

MAYOR ARMSTRONG BACK FROM CALGARY

MAYORS OF PROVINCE WILL DRAFT GENERAL ACT TO BE SENT TO LEGISLATURE

The next legislature will not be asked to pass a general franchise act governing the principal cities of the province, because the time is too short to prepare a bill in the manner it should be prepared, according to Mayor Armstrong, who returned this morning from Calgary where he attended the meeting of mayors.

By another year and before the session of the legislature opens in the fall of 1912, Mayor Armstrong said ample time would be afforded for the mayors to get together again and discuss the matter further. Meantime it is proposed to draft a proposed general franchise act and submit it to the different cities of Alberta, so that everybody interested may have a chance to offer such suggestions as they think might prove beneficial to the municipalities.

The visiting mayors were treated royally in Calgary, both citizens and civic officials doing everything possible to make their stay there very pleasant.

Fletcher Jones, former manager of the White Sox, is scouting for the St. Louis Browns on the Pacific coast.

KEELEY MINE IS A VALUABLE ONE

GOLD FOUND AND DEVELOPMENT WILL BE PUSHED—WRECKED FARMERS' BANK

Toronto, July 7.—The famous Keeley mine, which to 700 shareholders of the Farmers' bank was a forlorn hope, has suddenly boomed up as a genuine gold mine, and it will be developed to the fullest extent in the interests of the shareholders. Engineers sent by the curator, G. T. Clarkson, to Lorrain township, in the Cabell area, reported most favorably on the mine.

All the officials intimately connected with the property, definitely state that the name "curator" will proceed with the work of development in the interest of the shareholders and will not sell the mine unless a large price is offered. That price will have to be over a quarter of a million to insure acceptance, which would mean that the shareholders would have as an asset over half the amount invested in the mine by the convicted general manager.

HORSES FOR RACE MEET AT NIAGARA

Niagara Falls, Ont., July 7.—With several hundred horses already here and others en route, the first meeting of the Niagara Falls Racing association will open Monday on the new half mile track recently put in operation by a Canadian syndicate. The meeting will run for seven days, with six or seven races on the card each day. No purse will be offered of less than \$300, and handicaps will have from \$400 to \$500 added.

GOOD MARKS MADE AT THE ERIE RACES

Port Erie, Ont., July 6.—C. H. Hildreth raised the winners in two of the races at Port Erie this afternoon, his Gunard colt, Gold State, winning the Niagara selling stakes, while Royal Meteor captured the third-year-olds. Light showers fell during the afternoon, but the going remained fair.

First race, \$400, 4-year-olds and up, selling, six furlongs. Top Note won, Salvaterra second, Lady Sybil third. Time—1:13 2-5.

Second race, \$500, 4-year-olds and up (stephens) two miles—Ticket of Leave won, Waterway second, Stalker third. Time—4:00 2-5.

Third race, \$500, 3-year-olds and up, selling, six furlongs, Royal Meteor won, Royal second, Currier third. Time—1:13 3-5.

Fourth race, Niagara stakes, two-year-olds, 5 furlongs. Blad won, Alderman second, Vestalite third. Time—1:01.

Fifth race, \$500, handicap, three-year-olds and up, mile and eighth—Ambala won, Woodcraft second, Cliff Eddie third. Time—1:51 3-5.

Sixth race, \$400, 3-year-olds and up, selling, mile and seventy yards—Loki won, Edda second, Billy third. Time—1:13 1-5.

Seventh race, \$400, 3-year-olds, selling, mile—Al Once won, Barney lane second, Superose third. Time—1:30 2-5.

WITH THE BOXERS

Jack Ward, the English lightweight, who came to this country with Mail Wells, has returned home. Knockout Brown wants \$12,500 for his end to meet Webster. Nothing stirring for K. G. at that price. Bill Squires will return to the ring, having agreed to meet Bill Lang in Sydney next month. When the pair met a year ago Lang gave Squires an awful beating.

RAIN STOPS CITY LEAGUE BALL GAME

The baseball game which was scheduled for last night between the Redators and the Irish-Canadians was not pulled off, the rain putting the grounds in such condition that it was impossible to play. The game will be pulled off on an early date however, and manager Garrison of the Irish claims that his team is stronger than ever.

FLYNN WOULD NOT ACCEPT THE FORFEIT

New York, July 7.—Jim Flynn, the western heavyweight, is an honorable fighter. When the contest between him and Carl Morris, the white hope, which was scheduled to take place in Tulsa, Okla., on July 4, had to be called off on account of the governor of the state declaring he would not allow the fight to take place there, Flynn promptly refused to take the forfeit of \$1,500 which was offered by the promoter, put up his money and has now staged the bout at Tulsa. After has paid Flynn \$550 for his training expenses.

OTTAWA LOSES

Henley-on-Thames, July 7.—In brilliant weather and in the presence of an enormous crowd, the college of Oxford beat Ottawa in the fourth heat of the Grand Challenge cup today.

FARMERS HOLD PICNIC SPITE HEAVY RAIN

It took more than a downpour of rain, which blew up in the middle of the afternoon to dampen the spirits of the farmers of the Clover Bar, East Clover Bar and Agricola districts yesterday, for the prosperous residents of that flourishing section held a most successful picnic, enjoyed it, despite the untimely shower by Jupiter. Pivins at a most important, Scout A program of clean sports carried out in a thorough sportsmanlike manner and to bring with good fellowship, an abundance of good things to eat, and with common regard to things pertaining to agriculture, caused the hours to pass all too quickly. The events of the day had been well planned and were as well executed by the various committees, having the respective features under their individual charge.

The picnic was under the joint auspices of the Clover Bar, the East Clover Bar and the Agricola locals, United Farmers association. There is to be another farmers' picnic at Adresson on July 12th. Because of the rain, speaking that might have taken place was necessarily eliminated. Hon. Frank O'Brien was expected to be present and would probably have made some remarks, but that gentleman failed to put in an appearance. George Harcourt, deputy minister of agriculture, enjoyed the day with the farmers of those districts and would have addressed the

Has Been Wrestling Through Montana and is in Fine Shape for Match.

Peterson, the Sved who is to meet Kid Sandow and settle the claim for the Coast championship, for the Kid believes he is entitled to it, and Peterson claims it, is reputed to be some wrestler. He has had nine years of experience on the mat and knows all the tricks of the game. He has met Gotch five times and has thrown him one fall, after a remarkable match which was won by the big champion by throwing the aspiring corner twice in succession.

Peterson is a big fellow weighing almost 200 pounds and is all muscle. Built after the heavy shouldered style of the big wrestlers, he has not their bulky and somewhat clumsy legs, but is tall and supple, making his wins more by speed in breaking away than by muscular effort although he is as strong as the best. His shoulders and body are veritable masses of muscle. His thighs and calves, while huge and powerful, show no signs of fat. He will weigh in for the match with Kid Sandow at 191 pounds.

During the nine years of his ring experience he has met all the big ones in the game including Hackschmidt, although he was not class enough for the big Russian.

The match which will be held in the Thistle Ring on the 13th of July promises to be the biggest fight in the wrestling game that has been pulled off in Western Canada for a long time.

LAUDER CAN MEET NUTT IN CITY

The Calgary Albertian announces that Billy Lauder has challenged Nutt and that a side bet has been deposited as a guarantee. Lauder's challenge comes at a strange time seeing that the day before his publication a wire had been sent Lauder from Edmonton challenging him to meet Nutt here an interval several days before that Nutt had challenged him publicly to fight in Edmonton.

It is well known that Lauder has a big advantage when fighting in Calgary, every fan at the ring being his friend on a doling and he receives nothing but encouragement. When fighting away from Calgary he is among strangers. The fight that Nutt gave him in Saskatoon a while ago shows that to get a decision of the Saskatoon man he will have to fight a little better than he has fought for a long time. Possibly Lauder wants to avoid fighting in Edmonton.

If Lauder wants to fight Nutt as badly as he would lead people to believe he has an excellent opportunity to meet him in Edmonton.

WINNIPEG PULLS IT OVER THEM TO TUNE OF FOUR TO ONE FOR FOURTH TIME SINCE CALGARY STARTED ITS TOUR OF THE EASTERN END OF LEAGUE.

Winnipeg, July 6.—Air light pitching by Harry Syfert proved the downfall of the Calgary team in the first game of the present series here tonight, when the locals trimmed the Bronchos by the count of 4 to 1. It was an interesting game to watch, with the visitors in the lead until the seventh, when Southpaw Manning took his customary blowup and the Maroons chased three runs across the plate. They added one more in the eighth. Syfert twirled beautiful ball, striking out the third player on three occasions, when the visitors had one or more men waiting to come home. The batters only run was due to Collin's error. Both teams were sloppy in the field at times and the locals lost several chances to score in the other rounds, by being caught asleep on the paths. Piper's sensational fielding was the feature.

The box scores:
 Winnipeg, AB. R. H. P. O. A. E.
 Moran, cf., 3 0 1 0 1 1
 Syfert, 1b., 4 0 0 3 2 1
 O'Brien, ss., 4 0 0 3 2 1

BOY ATHLETES SAIL TO MEET AT NANCY FR.
 Montreal, July 7.—Fifteen picked Montreal boy athletes sail tomorrow on route for Nancy, France, where they are to compete in a great athletic tournament at the end of July. The tournament is to be held under the auspices of the French Gymnastic Federation of Sport and will bring together about 8,000 young athletes representing many of the countries of the world.

BIG TENNIS TOURNAMENT AT ILLINOIS
 Chicago, Ill., July 8.—Many well known tennis experts assembled on the courts of the Adler club here today for the opening of the annual tournament to decide the Illinois state championships. The play will continue through the coming week and judging from the anxious conditions attending the opening today, the tournament will be one of the most successful affairs of its kind that has ever been held here.

SOME DOPE ABOUT THE WRESTLING

Immediately before Mr. Butler started his eastern tour a match was arranged between Kid Sandow and him in Seattle and it is alleged that Butler would not wrestle because nothing could be fixed with Sandow. The Coast papers became instant and in order to get away from the match it is claimed that Butler started his eastern tour.

Kid Sandow is an engineer by profession and although but 24 years of age, has won every match he has been in on the Coast. Most following the news of Mr. Morris. Morris claims Sandow is one of the coming wrestlers of this country.

The boy is training hard in the city for the match which will give him a big boost towards the top of the wrestling game. He will weigh in at 180 pounds.

Sam Langford and Jack Briscoe, of Ottawa, will meet in Winnipeg, July 29.

are fired out in the spring are sent back and many of the southrons retained. There may be such a thing as "meriting managerial judgment" in the selection of raw material, but the selection of a man to manage a team that "meriting judgment" is attributed or accorded by rhapsodical boosters that he is a standard man and that they are subject to the standard man's dictations.

Bill Berger has surprised Brooklyn fans with his hitting. Bill is not only catching great ball for the Superbas, but he is keeping the ball for safe as well.

OPENING DAY
AT P. ALBERT
EXHIBITION

Prince Albert, July 6.—Ideal weather and excellent track conditions cheered the opening of the Prince Albert turf club meet in connection with the fair here this afternoon. There were three events on the card and while no records were broken, the racing was sufficiently exciting to give the large attendance a good run for their money. The play in the books, however, was light. The feature of the 2-10 race was the fact that Genta, who, with J. H. B. Wilkes, was played as a favorite, was distanced in the fourth heat, after taking two heats and being placed second in the third.

ROBINS PICK PICKERS IN FINE SHAPE

—Baskettooting July 6.—With the score 2 to 1 in favor of Moose Jaw tonight the ninth innings and with two men out and two strikes on Lockwood, the decision of Empire Morrison allowed the Robinsoids to add three more to a score which made it anybody's game. To almost the end, with two strikes over on Lockwood, he hit a drive to centre and Trainer allowed the ball to go through his legs, with the result that Lockwood stretched it into a homer, chasing Hartman and Harper in before him. It was a splendid exhibition up to the very last drive, but a decision of the

REAL ESTATE BULLETIN

For business purposes warehouse sites were most in demand today, with some Kirkness avenue.

Residential lots are wanted in H. B. Reserve, Groat Estate, Ingleswood, Norwood and Delton.

Houses are in demand, principally for renting, but none seem available in this way and many are being compelled to consider purchase. There is, however, a demand for cheap houses in the East End, which we have been able to satisfy.

Subdivision lands are in request, as well as market garden acreage.

Alberta Park

We commend this suburb to careful investors as one of the best offerings in the market today.

We ask the privilege of taking you out to see this property in the near future. Phone us to 1850 and arrange this.

Today's Offerings Business Properties

A double corner on Jasper Ave., opposite C.P.R. \$85,000
A corner (50 feet) on Jasper Ave., west, \$12,000
A warehouse site, corner lot on spur track, \$13,600
A lot on First St., in Northcote \$675

Residential Properties

An 8-roomed semi-modern house in Groat Estate \$3,750
A 9-roomed modern house on 24th St. \$6,700
A 9-roomed modern house on 16th St., on corner lot \$7,000
A new 7-roomed modern house on 24th St., ready August \$3,800
A double 5 roomed cottage on 13th St., rented at \$30 each \$1,000
A triple corner in Ingleswood \$1,500

Farm Lands

320 acres good land, 8 miles from Bruce on G.T.P. Ry., 15 miles from Vegreville, on C.W. Ry., 60 acres under cultivation, good frame house and barn; school 1-1-1 miles; per acre, cash \$13
On terms \$14
Or, without frame buildings, on terms \$10
150 Acres adjoining Cooking Lake Beach subdivision, with store and other buildings, implements, etc., acre \$25
160 Acres, adjoining above land at Cooking Lake, improved, per acre \$25

Scrap

South African veteran scrap always on hand, fully guaranteed, at current prices.

Also Half-breed and Red River veteran scrap.

Loans promptly negotiated. Agreements for sale purchased.

NEWS OF THE CITY

The funeral of Margaret Provost, wife of L. Provost, of Melville, Saskatchewan, took place this morning to the St. Albert cemetery.

The royal northwest mounted police taking part in the coronation parade will be shown from moving picture films at the Olympia theatre today.

A meeting of the Conservative association will be held this evening at 8 o'clock in the club rooms in the Grand Nar block, for the purpose of discussing organization.

A meeting of the Oddfellows' hall, corner of Griesbach street and Namayo avenue, next Monday evening, when the election of officers will take place.

Local union No. 544, International Brotherhood of Electrical Workers, held a Houston hall meeting Tuesday night in the coronation parade.

From his home at Melville, Thompson was brought to the mounted police barracks in Edmonton last night. From here he will be taken to the asylum at Ponoka.

The electrical workers decided to support the Trades and Labor council and the Building Trades council in their efforts to have a suitable labor temple erected in Edmonton, so that the workmen here may be as well provided for in this respect as the older cities of the Dominion.

Six brothers, who make up the Talbot family, gathered with their near relatives at the home of H. A. Daly, Lacrosse, yesterday. All were born in Ramona township, in the county of Washington, Ont., and it is more than 25 years since the separation occurred which is now being ended in the happy reunion in Canada.

After attending the convention of fire chiefs of the west, held recently in Calgary, Fire Chief Lander, of the Edmonton fire department, returned to the city last evening. Chief Rosebury, of Port Hope, and Chief Whitehead, of Westsaskin, who was formerly a member of the Edmonton fire brigade, accompanied him from Calgary.

Edmonton's bank clearances for the past week totalled \$1,992,219, as compared with a total of \$1,207,257 for the corresponding week of last year. The increase of 62.5 per cent. of \$784,962. The total is for a week of five days, Dominion day, a bank holiday falling on Saturday last.

The regular meeting of the board of directors of the Y. W. C. A. will be held in the home on Third street, at 8 o'clock p.m., at 3 o'clock p.m. As this will be the last meeting of the board for two months, it is specially requested that there be a full attendance. The newly elected president, Mrs. J. H. Lathrop, will preside at the meeting.

Letters of administration have been granted in the district court in the estate of Mary Katherine Henderson, formerly of Edmonton, who died on October 13, 1910, at Los Angeles, Cal. The executors of the estate are the husband of the deceased, Jonathan Henderson, and A. D. Henderson, son, Mary K. Henderson, children. The estate is divided among the husband, three children and two grandchildren, namely K. McVittie and Joan E. McVittie.

President, A. Clunk; vice-president, D. B. Hatt; recording secretary, W. J. Hill, pro tem; financial secretary, J. H. Hill; treasurer, P. F. Tompkins; second inspector, G. Phillips; foreman, W. M. McDonald; trustee, R. Broader; deputy master, W. Campbell; delegates to the Trades and Labor council, R. J. Gates, F. Bates and A. Clunk; delegates to the Building Trades council, P. Davis, A. Mackey and D. M. McDonald.

Fire of a mysterious origin destroyed the large grandstand on the Wapack exhibition grounds last night. The loss is estimated at \$70,000 and is partially covered by insurance. The racing stables on the grounds also caught fire and 47 valuable race horses were burned. These included Affric, record 2:12, owned by A. W. Hazzard, of Winnipeg, and valued at \$2,500. Till all the buildings on the grounds were not destroyed by the blaze is considered miraculous. The opening of the exhibition has been postponed from July 12th to July 13th as a result of the fire. A new grandstand is being erected.

Mayor Armstrong received a letter this morning from L. G. Reed, manager-director and chief engineer for the Colonial Engineering company of Montreal, stating he expected to visit Edmonton in the near future, with a view to looking into the feasibility of establishing interurban electric lines here. Mr. Reed represents a number of big capitalists in the east and it is stated that he desires to invest in public utilities, of which his company makes a specialty.

Building permits were issued this morning by City Building Inspector Drabble to M. H. Dewar for a house on Twenty-third street, estimated at \$3,100, and to D. McLeod for a house on Kinnaird street, valued at \$100.

G.T.P. BRAKEMAN HAS NARROW ESCAPE

CAR JUMPS TRACK AND JOHN LUCY IS THROWN VIOLENTLY TO THE GROUND

John Lucy, a brakeman employed by the Grand Trunk Pacific, had a narrow escape from serious injury, perhaps death, in an accident that happened yesterday afternoon on the spur track running from the company's yards here to the Swift packing plant in "X" Edmonton. The switching crew with which Mr. Lucy was working had just hauled a string of refrigerator cars and was pushing them out toward the big new establishment when the accident occurred. Mr. Lucy was standing on top of the forward car. Upon reaching a point some distance from the side of the packing plant the car suddenly left the track and turned over and over down the embankment. As the car jumped the track and gave a lurch to one side, Mr. Lucy had the presence of mind to throw himself from the car, and as he fell he caught the upturned wheels of the car with his body on the track. But for a forward quick move he would have been instantly killed. Mr. Lucy sustained severe bruises about the head and shoulders.

ANOTHER STREET CAR JUMPS TRACK

PASSENGERS ESCAPE INJURY, BUT CAR IS DAMAGED AND LINE BLOCKED FOR AN HOUR

While running at a fairly fast clip a street car jumped the track at Syndicate avenue and Sutherland street this forenoon, putting the new line to a severe test. The car was headed north, being scheduled to make the trip to the hillside park, when it struck the switch, diverging from the Syndicate avenue line to Sutherland street. Forward trucks passed the switch safely, but immediately after the switch happened. The switch opened for enough to throw the rear trucks clear off the track. It was all over in an instant, but until the passengers aboard the car, or at least the female portion of the passenger list, had lifted their voices in a mighty yell, evidently fearing that serious injury was about to befall them. No one was hurt, however. The trucks of the car were damaged slightly. Fully an hour was consumed by a force of workmen in clearing the tracks.

HAS CONFIDENCE IN CANADIAN WEST

EDITOR OF "THE CANADIAN MAIL" PAYS CITY BRIEF VISIT—IS TOURING THE DOMINION

Deep-rooted confidence in the commercial future of the Canadian west, and especially of the province of Alberta, is the attitude of the British investor at the present time, according to J. Hollins, manager of the Canadian Press Association, and editor of "The Canadian Mail," of London, Eng., who came into the city a couple of days ago. "The Canadian Mail" is a British paper devoted exclusively to Canadian news, with especial reference to finance and the commercial development of western Canada. The Canadian Press Association supplies Canadian news to no less than eighty prominent daily and weekly newspapers in the United Kingdom, the service covering the Dominion from coast to coast. It is in the interests of both of these concerns that Mr. Hollins' day is being made.

As editor of "The Canadian Mail," Mr. Hollins has succeeded W. J. Thorold, founder of the newspaper. It was in the fall of last year that Mr. Thorold brought into Edmonton a sum of \$1,500,000 for the financing of a project of peat capitalists.

Mr. Hollins was greatly impressed by the development of the prairie provinces, and the prospects of an excellent crop.

MOUNTED POLICE ARREST MAN WANTED IN ONTARIO

A man named Waciar was arrested by Mounted Police Detective McGarvey on a charge of rape which is alleged to have been committed by him in Ontario some time ago. The arrest was effected after a three day chase across country between Waskatoon, Ontario, and the Mounted Police who were finally caught. The information leading to his arrest was supplied by the Ontario Provincial police.

Mr. Waciar has a criminal record in Ontario, having served seven years in the east on a similar charge in 1891. He will probably be sent east for trial.

HOWARD DOUGLAS GETS UNIQUE GIFT

SUPT. OF PARKS PRESENTED WITH ILLUSTRATED BOOKLET BY JAPANESE RY. MANAGER

From the management of the imperial government railways in Japan, Howard Douglas, commissioner of Dominion government parks, has received as a present a most beautifully illustrated book of Japanese views, bound in Japanese silk.

Parks are being started by the Japanese government in connection with their railways, and Mr. Douglas has been furnishing a great deal of information relative to the government parks in Canada. The book of views was sent him as a token of appreciation for the information furnished.

For perfect coloring of the illustrations and artistic binding, it is safe to say that the book is not to be found among the publications of any printing house on the American continent. The illustrations are from photographs, which have been tinted with all the natural colorings of Japanese rural and mountain scenery, and the bright hues of the interior decorations of their houses.

The cover of the book in itself is a work of art. A typical Japanese scene, beautifully colored, appears in the foreground, while back of it the snow-capped peak of the sacred Mount Fuji looms up in the distance.

H. R. Chandler, general advertising agent of the G. T. P., to whom Mr. Douglas showed the book yesterday, said that he had never seen a book so full of page plates illustrating Japanese life in the cities and the country and showing the beauty of the gardens, the parks and the cherry groves.

TO DISCUSS CLOSING OF PICTURE SHOWS

Unless the order closing the Sunday schools is withdrawn Commissioner Butcher is expected to renew his demand that the picture shows in Edmonton also be closed pending abatement of the serious fever epidemic. The commissioners will meet late this afternoon and among the matters likely to come up is a communication from Medical Health Officer Whitelaw, taking issue with Mr. Butcher on the question of closing the Sunday schools and of the picture shows.

Commissioner Butcher urges that children are just as liable to contract the disease at public places of amusement as at Sunday schools. Mr. Whitelaw does not see the situation in exactly the same light, having, as he says, his communication to the commissioners, taken special pains to investigate conditions at the picture shows. He says that the children at children at these places is relatively small. To close the picture shows, Mr. Whitelaw points out, without sufficient grounds might result in lawsuits against the city, because the owners would lose financially, while the same condition does not apply to the Sunday schools.

Boilers Repaired

Have your Boilers repaired by an experienced boilermaker. For satisfactory work call on a postal card.

A. BOWLING 1134 Fifth Street. Edmonton.

MANHATTAN PARK ACRES LOTS

Brides of the Hour

McKINNON-SHARP.

The wedding took place at 7:30 on Thursday, June 29, at the home of the bride's mother, of Miss Irene, second daughter of Mrs. John Sharp, Summerville, P.E.I., and James A. McKinnon, Edmonton, Alta. The marriage was solemnized in the Presbyterian church, Summerville, by Rev. J. Fraser. Roses and other flowers in profusion artistically arranged about the building by the girl friends of the bride, decorated the church. The wedding march was played by Prof. Whitney, as the bride party entered the church. The bride was charmingly attired in a gown of ivory satin with Duchess lace and a bridal veil of Duchess lace and lilies of the valley. She was given away by her brother, Mr. Ludlow Sharp, while her sister, Miss Marion, acted as bridesmaid, wearing pink marquis over pink silk, with black picture hat, and carrying a bouquet of pink roses. Alexander McKinnon, of Edmonton, brother of the groom, acted as groomsmen, while the two sisters were the bride's brothers, Claude and Albert. A dainty wedding breakfast was served at the home of the bride's mother. It fell at the conclusion of the ceremony.

A pendant of diamonds set in satin was the groom's gift to the bride, while to the bridesmaid and to Miss Jessie Sharp, cousin of the bride, a pendant of pearls was given. To the groomsmen the bridegroom gave a diamond scarf pin and to the ushers pearl scarf pins.

Mr. and Mrs. McKinnon left after the wedding breakfast by the Empress for an extended wedding tour to the Pacific coast. They will afterwards take up residence in Edmonton.

CABLE-RUSSSELL

The marriage took place at Holy Trinity church on Wednesday afternoon of Harry G. Cable, of Strathcona,

formerly of Hastings, England, and Miss J. Russell, of Grounbridge, near Thunders Bay, England. The ceremony was performed by Rev. Mr. Lyne, and about forty guests were present and were entertained to breakfast at the home of the bridegroom's parents, on Eighth street east and Fifth avenue.
